NATURAL SETTING

Topographically, the surrounding countryside is varied. The site has level topography with spectacular evening sunsets.

Wildlife is abundant in the area: raptors and other rare species of animals can still be found here because of the abundance of water and cover in this rural area.

AREA INFORMATION

Agriculture is still the dominant economic activity in the Valley Center area. Horse and cattle ranches are the backdrop for the landscape of light residential development. Gaming and tourism are important financial contributors, signaling the transition from agriculture into a more varied and stable economic base in the immediate area. There are many fine restaurants and lodging accommodations in the surrounding area of this centrally, yet privately located property.

Major shopping and resources are less than 30 minutes away.
