

Harmony Ridge

Owners' Narrative

What would it be like if every day felt like you were on vacation?

That's exactly what life is like at this charming home nestled in the mountains. Lovingly known as Harmony Ridge, this perfect country estate offers endless possibilities. Hobby farm? Yes. If you want it to be. There is a chicken coop, large fenced in garden, a generous shed, a large workshop with a wood stove and 3.66 wooded acres to do what you please. Or, forgo the hobby farm and just enjoy the beautiful surroundings while meeting each day from your peaceful home. An added bonus is the adorable greenhouse, built with antique, single pane, reclaimed windows from a local landmark restoration.

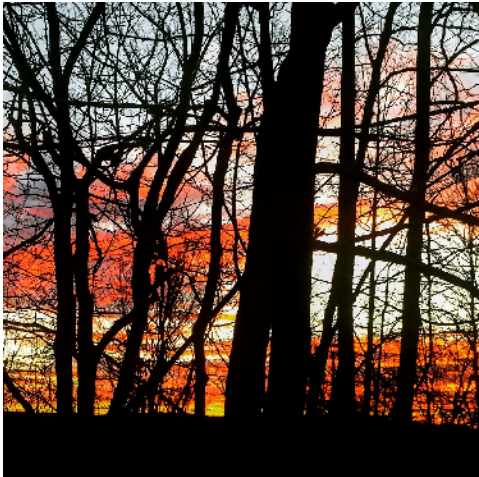

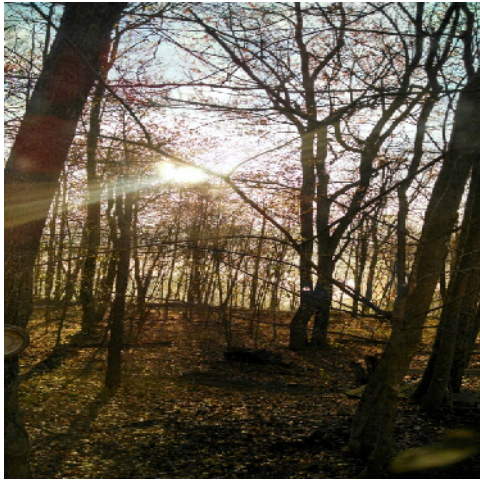

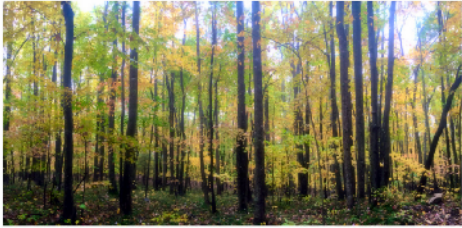

Sunsets and a stunning night sky can be viewed from your generous back deck which comes complete with a Jacuzzi hot tub (brand new cover). Sit on the front porch and enjoy the sunrise and meadow views while deer, turkey, quail and other wild life put on a show! This home is a 2 x 6 built which means deeply solid construction and extra thick insulation resulting energy efficient heating and central air. The large, one level, open floor plan is perfect for entertaining and works easily for all stages of life. A stacked stone wall with a wood stove and a blue stone hearth is perfect for cozy evenings and is capable of heating the whole home.

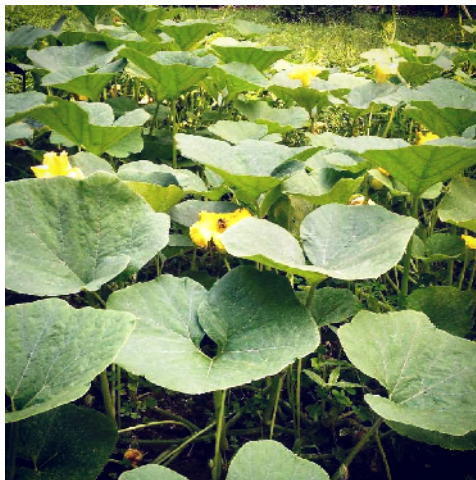

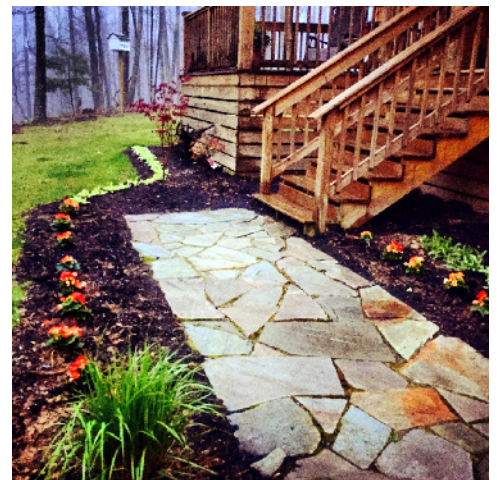

Gorgeous maple cabinets fill the kitchen and 150 year old reclaimed wood planked floors flow throughout the house making cleaning a breeze while creating a beautiful natural look. An extra-large master bedroom with an on suite makes your relaxation complete with a Jacuzzi bath tub, ceramic tiled shower, separate water closet, large windows for plenty of natural light and a large walk in closet.

Two more bedrooms and a second full bath make this the perfect home for a family, or as a retirement home or vacation lodge. Whether you choose to live here year round or decide to use it as your vacation home, you are only 20 minutes to all city amenities and two major interstates, 15 minutes to skiing plus your only 30 minutes from New River Gorge Recreation area and Blue Stone Lake. What we love about this home:

What isn't to love?

Peace and quiet and yet, a quick drive to grocery stores, entertainment, recreational activities and more. We really like the fact that the property butts up against 12,000+ acres of forest, mountains, and valleys. One of our favorite things is to get up in the morning and walk the yard while drinking our coffee. We can stand by the greenhouse and watch the heavy clouds, laying in the valley, slowly dissipate as the sun goes higher revealing stunning mountain skylines. Woodpeckers, doves, Eastern bluebirds, finches, blue jays, and humming birds fill the woods with beautiful sounds. This house is magical...it's that simple. Everyone who visits or comes by for dinner says the same things...why would you ever leave? We are moving due to a job transfer...or we would be sitting on the porch saying the same thing.
