**CSR/CSR2 UPDATE:** In January, 2014, the USDA Natural Resources Conservation Service (NRCS) released a soil survey update containing a Corn Suitability Rating (CSR) for Iowa soils based on a revised formula referred to as CSR2. For any given farm, the CSR values based on the CSR2 formula may be significantly different than the original CSR values published prior to January, 2014. Additionally, the current soil survey may contain soil types that are not found in pre-January, 2014 surveys, which will result in the CSR being reported as a null value. As the market transitions to the new CSR2 formula, we are providing both CSR and CSR2 values where both values are available. If a soil type does not have a CSR value, and is being reported as a null value, we are providing the weighted CSR based on the pre-January, 2014 soil survey data.

### Property Information Parcel 2 - 4.56 Acres m/l with house and buildings

#### Location

**From Alburnett:** ½ mile South on Alburnett Road and ½ mile west on Old Quaas Rd.

**From Marion, at the Intersection of Highway 13 and Highway 151:** 4 miles north on Highway 13, then 3 ½ miles west on County Home Rd., then 3 ½ miles north on Alburnett Rd. and then ½ mile west on Old Quaas Rd.

#### Legal Description

To be known as Lot 1, Quaas Farm First Addition to Linn County, Iowa.

#### Possession

Negotiable. The Tenant reserves use of the grain bins until March 1, 2016.

#### Price & Terms

- \$175,000
- 5% down upon acceptance of offer; balance due in cash at closing.

#### Real Estate Tax - Estimated

Taxes Payable in 2014 - 2015: \$1,600  
Net Taxable Acres: 4.56 Acres

#### House

Includes a two-story farmhouse that was built around 1870 consisting of 2,176 finished square feet. The house includes four bedrooms on the second level and one bedroom on the main level. There are also two bathrooms. There are many newer windows and the kitchen is in nice condition. The house is being sold "As Is, Where Is".

#### Outbuildings

**Chicken Shed:** 14' x 60' with a steel roof, ideal for storage or livestock.

**Machine Shed:** 36' x 80', steel frame building with 13' sidewalls. Includes a separate section for a one-stall garage, steel roof.

**Cattle Shed:** 40' x 86', steel roof and dirt floor.

**Livestock Barn:** 60' x 80', this is one of the neatest older barns in the area. It is considered a peg barn and includes a loft and an area for machinery storage and livestock. Very well cared for. Steel roof.

#### Grain Bins

There are three grain bins located north of the machine shed. The tenant reserves use of these grain bins until March 1, 2016.

#### LP Tank

There is a 1,000 gallon LP Tank located east of the house. This will stay with the property.

### Water & Well Information

The well is located north of the house. The pressure tank is located in the pit with the well. This is considered a “shallow well”.

### Comments

This is an attractive rural setting located near Alburnett on a quiet road. This is an ideal opportunity to live in the country and the outbuildings work well for livestock or storage. Another option would be to tear down the house and build your dream home on this attractive rural setting.

There are an additional 147 acres for sale adjoining this acreage.

See house brochure for additional information.

## Aerial Photo: Parcel 3

### Property Information Parcel 3 - 39 Acres m/l Location

**CSR/CSR2 UPDATE:** In January, 2014, the USDA Natural Resources Conservation Service (NRCS) released a soil survey update containing a Corn Suitability Rating (CSR) for Iowa soils based on a revised formula referred to as CSR2. For any given farm, the CSR values based on the CSR2 formula may be significantly different than the original CSR values published prior to January, 2014. Additionally, the current soil survey may contain soil types that are not found in pre-January, 2014 surveys, which will result in the CSR being reported as a null value. As the market transitions to the new CSR2 formula, we are providing both CSR and CSR2 values where both values are available. If a soil type does not have a CSR value, and is being reported as a null value, we are providing the weighted CSR based on the pre-January, 2014 soil survey data.
