Past due if paid after the 15th and is subject to a 1% penalty.

A Message from your Touchstone Energy Cooperative

Sleek new flat-panel TVs can consume almost as much electricity as a refrigerator! In general, the bigger the screen, the more power it draws, and HD pulls even more yet. Plasma screens use the most energy, while LCD TVs use much less. Remember to change your new TV'S default setting to a power save mode. For more energy efficiency information go to www.dunnenergy.com.
