Fayette County makes no claims, guarantees, or promises about the accuracy or completeness of this data and explicitly disclaims accountability for any errors or omissions. Represented boundaries are approximate and should not be used for exact measurement or legal documentation.

2011 Pictometry

SPECIAL FLOOD HAZARD AREAS (SFHAs) SUBJECT TO INUNDATION

The 1% annual chance flood (100-year flood), also known as the base flood, is the flood that has a 1% chance of being equaled or exceeded in any given year. The SFHA is the area subject to flooding by the 1% annual chance flood. Areas of Special Flood Hazard include ZONE A and ZONE AE. The Base Flood Elevation (BFE) is the water-surface elevation of the 1% annual chance flood. ZONE A - No BFE determined. ZONE AE - BFE determined. OTHER FLOOD AREAS - Areas of 0.2% annual chance flood are areas of 1% annual chance flood with average depths of less than 1 foot or with drainage areas less than 1 square mile; and areas protected by levees from 1% annual chance flood.
