01-038-1995

County: **Adams**

Town Name: **RICHFIELD**

Town: 18N; Range: 07E; Section: 18; *NESE + SUSE K RUD* Total plan acreage: **77.66**

Contract Length: **25 years**

Starting: **January 1, 1995 through December 31, 2019**

**ATTACHED MAPS SHOW THE LOCATION OF MANAGED FOREST LANDS AND THE AREAS OPEN OR CLOSED TO PUBLIC ACCESS.**

The purpose of the Managed Forest Law is to encourage the growth of future commercial crops through sound forestry practices which consider the objectives of individual property owner, forest aesthetics, wildlife habitat, erosion control, protection of endangered or threatened plants and animals, and compatible recreational activities. Forestry under the law "means managing forest lands and their related resources, including trees and other plants, animals, soil, water and air." To guide the Department in fulfilling this stewardship objective, a statement of the owner's forest management objectives is required in the plan. The following statement has been provided either by the landowner or developed with the assistance of the Department. By signing this plan the landowner(s) agree to comply with it. (The law specifically prohibits use of Managed Forest Lands for commercial recreation, industry, human residence, grazing of domestic livestock or other uses the Department deems incompatible with the practice of forestry.)

**LANDOWNER OBJECTIVES FOR MANAGEMENT OF THE ENROLLED LANDS:**

To properly manage the forest resource for recreational hunting and wildlife habitat.

The following pages include descriptions of vegetative or physical areas called "stands." Mandatory forestry practices which must be completed by the landowner(s) during the contract period are listed. Optional or "Approved" forestry activities may also be provided. Regarding mandatory practices, failure to complete them by the end of the specified year may result in withdrawal from the program and payment of a substantial withdrawal tax. The plan may be revised only with consent of both the landowner and the Department. If timber is to be harvested, a cutting notice on Department forms is required at least 30 days prior to cutting. Cutting under the notice may be commenced within one year of the date approved by the Department. Details concerning harvests, taxes, transfers, and other terms of the Managed Forest Law can be found under Chapter 77, subchapter IV, Wis. Stats., and in Chapter NR 46 of the Wisconsin Administrative Code. (Copies of the law or rules are available from the Department upon request. Landowners may also contact their local DNR forester for assistance.)
