Geography: Census Tract

The data reflect estimated household income in 2010 for persons 15 years and older. It includes income from wages or salary, net self-employment, interest dividends, rentals or royalties, Social Security, retirement, disability, and welfare. Household income is the total for all persons over age 15 in the household. Median household income is the income where half of all households in an area have a larger income and half have a smaller income.
