Executive Summary with Charts

Prepared by George Alexander

Population and Households

The size of the market area, measured by population and households, has changed from 2000 through the forecast year as follows:

Year	Population	Households
2000	20,555	7,993
2010	22,898	8,956
2015	24,002	9,402

The difference between change in population and change in households is a result of two factors-the presence of group quarters (non-household) population in the market area and the average number of persons per household. The group quarters population in the market area was 120 in 2000, or 0.6 percent of the total population. Average household size is 2.54 in 2010, compared to 2.56 in the year 2000.

Population by Age

The median age for the United States was 35.3 in 2000 and 36.7 in the current year. In the market area, the median age of the population was 39.3, compared to 42.6 years currently. By age group, the changes in the percent distribution of the market area population show the following:

Population by Education

In 2010, the educational attainment of the population aged 25 years or older in the market area can be summarized:

Population by Race/Ethnicity

Currently, the racial composition of the population in the market area breaks down as follows:

Persons of Hispanic origin represent 4.7 percent of the population in the identified market area compared to 15.0 percent of the U.S. population. Persons of Hispanic Origin may be of any race. In sum, the Diversity Index, which measures the probability that two people from the same area will be from different race/ethnic groups, was 20.2 in the identified market area, compared to 59.3 in the U.S. population.

Population by Employment

In 2000, 72.4 percent of the population aged 16 years or older in the market area participated in the labor force; 0.4 percent were in the Armed Forces. Tracking the change in the labor force by unemployment status:

Year	%Employed	%Unemployed
2010	91.0	9.0
2015	92.9	7.1

And by occupational status:

In 2000, 74.5 percent of the market area population drove alone to work, and 5.8 percent worked at home. The average travel time to work in 2000 was 30.1 minutes in the market area, compared to the U.S. average of 25.5 minutes.

Income

The change in three summary measures of income—median and average household income and per capita income—are shown below from 1990 through 2015:

Housing

Currently, 57.9 percent of the 12,416 housing units in the market area are owner occupied; 14.2 percent, renter occupied; and 27.9 percent are vacant. In 2000, there were 10,362 housing units—62.4 percent owner occupied, 14.7 percent renter occupied and 22.9 percent vacant. The annual rate of change in housing units since 2000 is 1.78 percent. Median home value in the market area is \$212,227, compared to a median home value of \$192,285 for the U.S. In five years, median home value is projected to change by 2.92 percent annually to \$245,037. From 2000 to the current year, median home value changed by 2.76 percent annually.
