

RANCH DESCRIPTION

The ranch comprises 567± acres in Kimble County Texas. With several hill tops and deep draws, the property has almost 300 feet of elevation change. This property has beautiful hill country views and the perfect terrain for hunting and other recreational activities. The ranch is high-fenced and has four residences along with barns and breeding pens for a game management program.

The property has five water wells. 3 are in the shallow Edwards Aquafir and produce 4, 5 and 6 gallons per minute respectively. These wells are connected to storage tanks. Another well is in the deeper Trinity Aquafir and produces 40 gallons per minute. The last well is an Edwards well that is windmill driven and has a maximum output of 4 gallons per minute.
