LAND FOR SALE WE ARE PLEASED TO PRESENT

**1 1/2 miles south of Niantic, Illinois
10 miles west of Decatur, Illinois**

SOIL TYPES: Weighted Average – Bulletin 811

	<u>Corn</u>	<u>Beans</u>	<u>P.I.</u>
Tract 1	167	53	137
Tract 2	169	53	137

Estimated acreage for each soil type and estimated crop yields are shown above. The yield estimate is based on studies by the University of Illinois assuming the optimum level of management. Yield ratings were obtained from Bulletin 811 "Optimum Crop Productivity Ratings for Illinois Soil". The Productivity Index provides a single scale on which soils may be rated according to their suitability for several major crops.

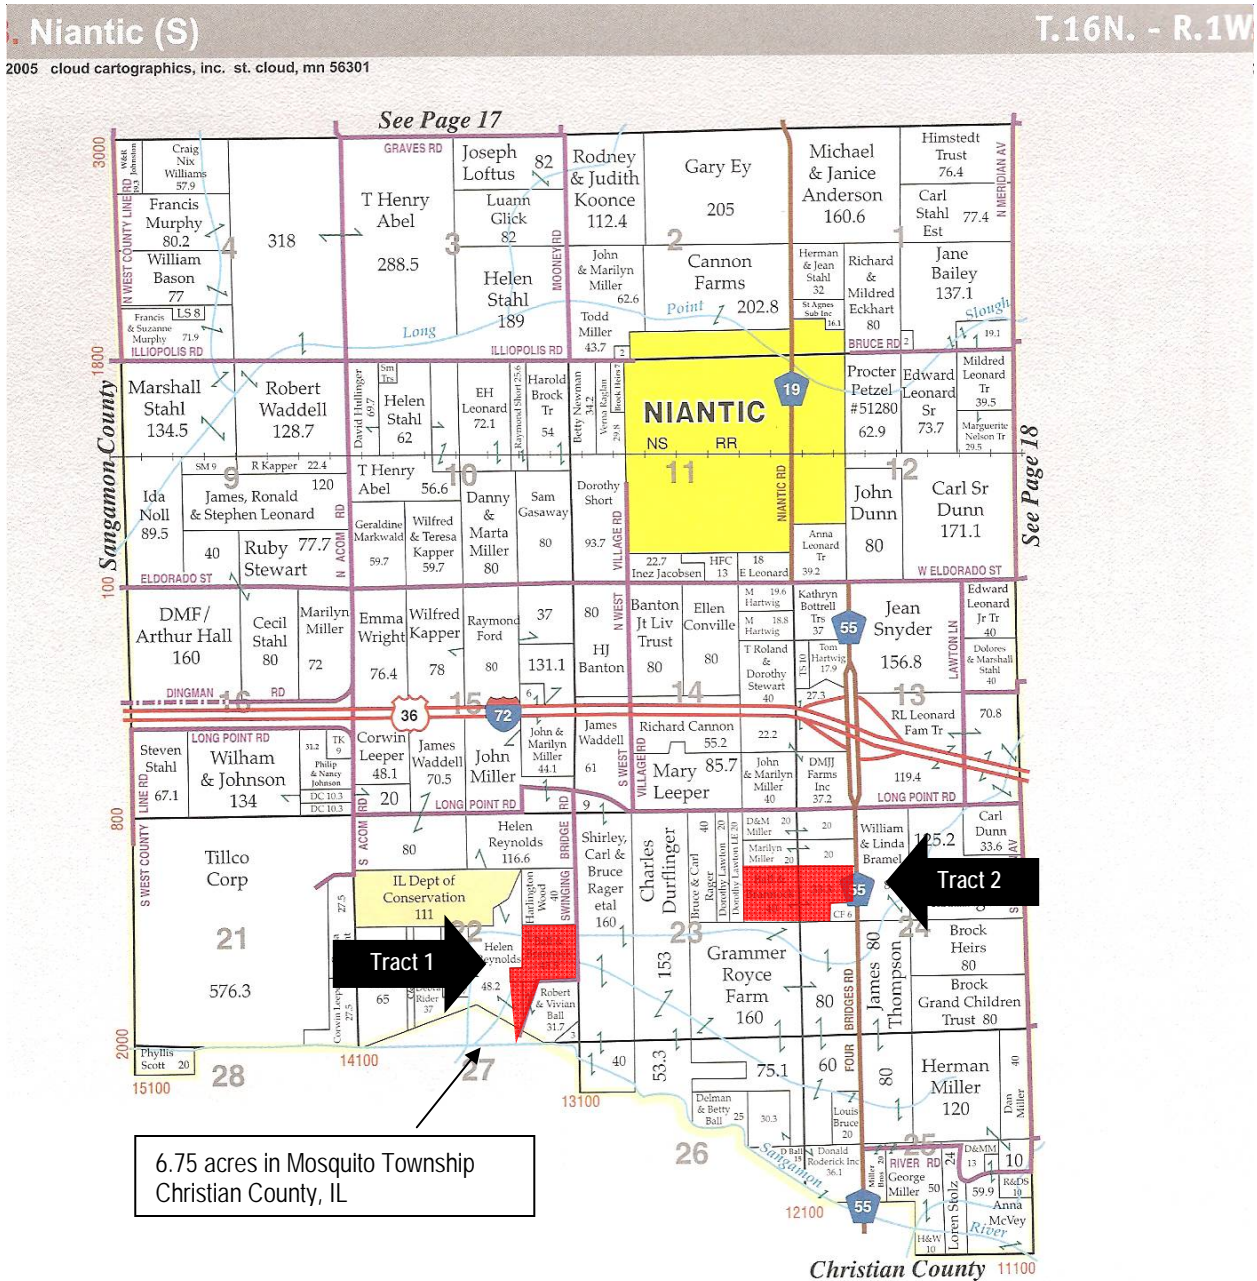

See table on the following page for specific soil types.

IMPROVEMENTS: None
