

WHY WE CALL IT A HUNTERS PARADISE

This place has been high fenced for close to 10 years. A management process is in place with a goal of avg. harvested bucks being in the 170 Boone and Crockett range. 40 does were harvested last year. The population is estimated at \pm 250 deer. Three bred does to a 281 class buck, and 3 yearling bucks out of a renowned breeding buck were added to the genetic pool this year. This ranch is headed in the right direction for superior hunting whitetails!

A true hunting preserve with over 2 miles of coop water ran underground to the watering stations. 3 covered pipe feeding stations, 4 stands with feeders are conveyed as well. This is a prime property to lease or guide hunts on.

THREE SONS OF TROOPER WERE
INTRODUCED INTO THE HERD TO
PRODUCE SUPERIOR
200+ CLASS WHITETAILS.
