Metropolitan statistical areas (metro areas) are geographic entities defined by the <u>U.S. Office of Management and Budget (OMB)</u> for use by Federal statistical agencies in collecting, tabulating, and publishing Federal statistics.

The term "Core Based Statistical Area" (CBSA) is a collective term for both metro and micro areas:

<u>Metro areas</u> have core of <u>50,000 or more</u> population <u>Micro areas</u> have core of <u>at least 10,000 and less than 50,000</u> population

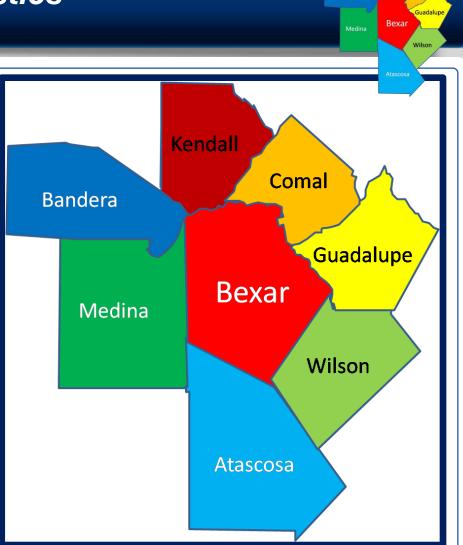

Each metro or micro area consists of one or more counties and includes the counties containing the core urban area, as well as any adjacent counties that have a high degree of social and economic integration (as measured by commuting to work) with the urban core.
