REASON: L.F., S.V. NOT FOUND

00-00-00

NOTES:

All sets or points with given bearings and distances were calculated by traverse methods. All other points were calculated by intersection methods. Distances are in feet. Length multiplied by .609, triangulation, plane meter, reading from existing map, and coordinate geometry. Acreage shown are not necessarily right-of-way, where applicable, has been determined by planimetry. Dimensions shown have been shown due to space limitations. Dimensions in parentheses denote record c/s or for better definition.
