PLEASE MARK CENTER OF DRIVEWAY ENTRANCE WITH STAKE**

1. INSURANCE REQUIREMENTS:

- The applicant shall meet Black Hawk County's minimum insurance requirements. A Certificate of Liability Insurance with ALL of Black Hawk County's requirements must be on file with the County Engineer's office before the permit can be approved. Black Hawk County requires General Liability in the amount of \$1,000,000 per occurrence and \$2,000,000 aggregate, automobile insurance in the amount of \$1,000,000, statutory limits for Workers Compensation. It is further understood that Black Hawk County must be named as Additional Insured for General Liability and also Automotive Liability and Black Hawk County (not the Engineer's Office) must be listed as Certificate Holder.
- The applicant shall provide the County Engineer with proof of said insurance when requested, but, in any event, no later than annually and as long as this agreement exists. Failure of the applicant to maintain insurance shall not relieve said applicant of the indemnification duties hereunder, but may be grounds for termination of this agreement.

2. HOLD HARMLESS: The Applicant shall indemnify and hold harmless Black Hawk County

- its agents and employees, from and against all claims, damages, losses and expenses including attorneys' fees arising out of or resulting from the performance of the work, provided that any such claim, damage, loss or expense is attributable to bodily injury, sickness, disease or death, or to the damage to or destruction of tangible property (other than the work itself) including the loss of use resulting therefrom, and is caused in whole or in part by any negligent act or omission of the outside party or its subcontractor, anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, regardless of whether or not it is caused in part by a party indemnified hereunder.
- from any damage that may result to said roadway because of the construction, operation or maintenance of said facility and/or connecting facilities and shall reimburse Black Hawk County for any expenditures it may have to make on said highway on account of said construction, operation or maintenance by the applicant, and shall replace and restore any roadway, including surface and sub-surface materials. The applicant shall also hold Black Hawk County harmless from any damages that said County would otherwise be responsible for, that flow directly or indirectly from said project, because of construction, operation, or maintenance of said facility.
- agrees that for all work done in the County road right of ways, easements and county property, it shall be solely responsible for work zone safety and shall hold the County harmless and agree to indemnify the County for all claims that arise from its work in the right-of-way, and further, it agrees that it will adhere to the Manual on Uniform Traffic Control Devices (MUTCD) during the project. The utility owner, or their contractor, is responsible for providing, installing, maintaining, and cleaning warning signs and protective devices; removing warning signs and protective devices when the work is complete; and providing flaggers for the protection of the traveling public and workers on the site.
- For a complete copy of the Black Hawk County Insurance Requirements Policy please go to:

Inspection and Acceptance of Work

Date

SECTION ONE - APPLICATION

Any property owner desiring an access to any county road shall make written application on the prescribed form available through the Office of the County Engineer. This permit shall expire one year after date of approval by Black Hawk County, if proposed driveway or entrance construction is not completed within that time.

SECTION TWO - LOCATION AND REVIEW

All field entrances and driveway applications shall be reviewed by the County Engineer or representatives for location, safety, and drainage. Each access shall be located to ensure a minimum sight distance of 550 feet. One access will be allowed for each parcel; unless it is divided by a non-crossable obstruction (streams, RR, etc.)

SECTION THREE - CONSTRUCTION

All field entrances and driveways shall be constructed in a workmanlike manner to acceptable standards with privately owned equipment. See diagrams below. Top width: 18 ft. to 40 ft. Side Slopes: 3:1 - non-paved county roads; 6:1 - paved county roads. Profile slope: 2% - 4% down from shoulder; 10% Maximum grade.

Field entrances and driveways should approach the roadway on an uphill grade. Field entrances and driveways approaching the roadway on a downhill grade shall be shaped to drain surface water before reaching the shoulder line of the roadway. This prevents runoff onto the road and helps with snow removal and maintenance. Maximum grade for a field entrance or driveway shall be 10%.

The Applicant must seed all disturbed areas upon completion of project. The County recommends a diverse seed mixture; for more information please call our office.

SECTION THREE - CONSTRUCTION CONTINUED

Fill for accesses shall be soils only. NO BROKEN CONCRETE, STONES, BRICKS, TILE, WOOD, OR OTHER RUBBLE WILL BE ALLOWED. Driveways to be used as home drives shall be surfaced with 2" of Class A crushed rock.

SECTION FOUR - PIPE

The County Engineer will determine size and length of pipe required at the time of application review. Acceptable pipe materials are new corrugated metal pipe and reinforced concrete pipe which meet the standard specifications of the Iowa DOT. Placement of the pipe is to be at the toe of the back slope. List of available suppliers provided upon request.

SECTION FIVE - COST

Owner assumes all costs associated with the installation or reconstruction of a field entrance or driveway.

SECTION SIX - MAINTENANCE

Black Hawk County will only assume maintenance of the drainage structure, upon inspection and acceptance as dated on this permit. Owner assumes maintenance of the surface. County will return surface of entrance or drive to original condition, in the event of pipe maintenance. County will not rock beyond roadway shoulder line.

SECTION SEVEN - SURFACE PAVING

The owner is to call the Engineer's Office for inspection of culvert pipe 2 weeks prior to placing hard surface. The County will not replace or maintain paved surfaces.

COUNTY MAY REMOVE ANY ENTRANCE NOT BUILT TO THESE CONSTRUCTION SPECIFICATIONS
