

# LeafLock

## Never Clog! Never Replace!

LeafLock warrants to you, the original purchaser of LeafLock, that under normal use and proper maintenance, this product will be free from defects in material and workmanship for as long as you reside in the home in which LeafLock was installed. The details of the warranty are as follows:

### **PANEL AND ACCESSORIES LIFETIME NON-PRORATED**

LeafLock panel and accessories will be free from manufacturing defects for as long as you own your home. This warranty is transferable.

### **KYNAR PAINT FINISH LIFETIME NON-PRORATED**

LeafLock paint finish will not blister, peel, flake, fade, chip, or crack for as long as you live in your home. This warranty is transferable.

### **LIMITATIONS**

LeafLock warrants only the manufacturing defects on the panel, accessories and paint finish. LeafLock is not responsible for circumstances beyond its control, such as (but not limited to), improper installation, accident, hail, fire, flood, explosion, wind blown objects, salt spray, harmful chemicals, abuse, vandalism, or improper maintenance. LeafLock is not liable for any incidental or consequential damages resulting from any direct or expenses except as expressly provided herein. The warranty gives you specific legal rights; you may have other legal rights which vary from state to state.

This warranty covers material only.

### **CLAIM PROCEDURE**

You must notify your installing dealer and LeafLock, in writing, of any manufacturing defect following its discovery at:

Truss Building Products, LLC  
37535 I-H 10 West  
Boerne, TX 78006  
Attn: Warranty Dept.

Include with each claim a copy of the original warranty and a copy of the contract with the installing contractor, and three photos of the failing product. If the LeafLock cannot determine whether or not the paint finish has failed by examining the photos, it may require a section of the product to be sent to the above address. LeafLock will pay for all shipping costs related to the failure of the product.

### **CARE AND MAINTENANCE**

LeafLock is designated to be virtually maintenance free. However, dirt or debris may build upon the front edge of the panel. Dirt or debris buildup may cause dripping or run over in those areas that have the buildup. An annual spray, or as needed, of the top/front edge of the installed system with a hose or pressure hose will help maintain the performance. In areas where pine resins or excessive tree sap prevalent, a periodic cleaning with a mild detergent may be necessary.

### **WARRANTY REGISTRATION**

Warranty registration card must be completed and mailed within 30 days after original installation has been completed.

Please mail to:

LeafLock Department  
Truss Building Products, LLC  
37535 I-H 10 West  
Boerne, TX 78006

Failure to register the warranty does not void the warranty, it must be registered to transfer and assist LeafLock in processing any warranty claims you may have.
