A photograph of a calm river flowing through a wooded area. The water reflects the surrounding trees and the sky. The banks are covered with dry grass and fallen branches. The foreground shows a rocky shoreline with many small stones.

An aerial photograph of a river valley. A black polygon is drawn on the image, highlighting a specific area of interest. The polygon is a quadrilateral with vertices at approximately [315, 180], [315, 520], [930, 670], and [315, 180]. The area within the polygon is a mix of bare trees and some evergreens. The river flows through the valley, and the surrounding landscape is mostly bare trees and some green fields. There are two smaller inset images: one at the top center showing a rocky riverbank, and one at the bottom left showing a close-up of bare tree branches.
