

120 acres of Prime Recreational Land

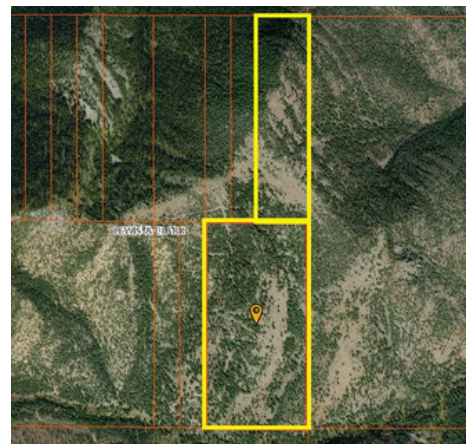

...or private home acreage! Find an active SPRING near the base. The acreage BORDERS desirable STATE ground. It has privacy, but also decent, insurable access. It is held in two deeds, which means it has already been divided into two separate parcels. This is mountainous terrain. The seller recently did some excavation to carve out a building spot with a road to it. Many, many options for use. Off grid. It is too far to bring electricity economically. Seller may finance.

Nhn Gladstone Creek Drive, Wolf Creek, MT 59648 Offered at \$120,000
