

CR 1G

This is an aerial photograph of a rural landscape. A red line with white dashed markers outlines a specific area of land. The area is irregular, with a long vertical left side, a horizontal bottom side, and a jagged top side. The land within the boundary is mostly brown and tan, with scattered green trees and a few small white buildings. A road, labeled 'CR 1G', runs along the top edge of the boundary. To the right of the boundary, there are large green fields, a small green pond, and a large area of dense green trees. The overall scene is a mix of agricultural and natural land.

Approx. 41.000 Acres
