Only four (4) bed and breakfast units within the principal Dwelling or in a separate guest house shall be permitted.

(2) Swine shall not be kept on any Tract.

(3) All livestock, pets and poultry shall be kept under fence within the boundaries of a Tract. This restriction shall not apply to unsold Tracts owned by Declarant. Furthermore, Declarant (and/or their tenants or assignees) shall have the right to graze cattle or livestock on an Owner's Tract until such time as such Owner has enclosed the Owner's Tract by fence; and each Owner and their respective heirs, successors and assigns, by acceptance of title to an interest in a Tract, hereby agree to indemnify and hold harmless Declarant (and their respective tenants or assignees), from and against, and hereby waive and release any claims or causes of action such Owner may have with respect to, any injuries to any persons or any damages to any properties

that may be caused by livestock on an Owner's Tract, or that may otherwise arise out of, or be suffered or incurred in connection with, the exercise by Declarant (or their tenants or assignees) of the right to graze livestock on an Owner's Tract, and/or the presence of livestock on an Owner's Tract.

(4) The owner of a tract which has a boundary on the perimeter of the Subdivision (a boundary which abuts property other than a Subdivision Tract boundary) shall maintain the fence on the Tract's boundary perimeter in a manner which will restrain livestock.

(10) No Tract shall be further divided or resubdivided without the express approval of Declarant.

ARTICLE IV.

ARCHITECTURAL REVIEW COMMITTEE

Section 1. Development Objectives. The aesthetic and ecological quality of the Property requires that all Improvements be compatible with other improvements and be in harmony with the natural surroundings. To this end, an Architectural Review Committee (the "ARC") has been created as described in this Article IV. The ARC has the responsibility to carry out the goals and functions that have been adopted, and are described below, and which may be amended from time to time.

Section 2. Architectural Review Committee. The ARC shall be composed of three (3) persons selected and appointed by (i) the Declarant, as long as the Declarant owns any interest in any of the Tracts, and (ii) after the Declarant no longer owns any interest in any of the Tracts, by the selection of the Owners of the Tracts at a meeting called for that purpose by any Owner of a Tract during the month of January of each calendar year. Each Owner of a Tract shall be entitled to one vote for each member to be selected and the candidates receiving a majority of the votes for each position by Tract Owners present personally or by proxy at the annual called meeting shall serve for a term for that calendar year as members of the ARC. Cumulative voting is not allowed.

Section 3. Goal of ARC. The goal of the ARC is to encourage the construction of improvements (including exterior lighting) of good architectural design, aesthetic quality and proper size compatible with other improvements and in harmony with the natural surroundings. Improvements should be planned and designed with particular attention to the design and aesthetic appearance of the exterior and the use of such materials as will, in the judgment of the ARC, create an attractive and harmonious blend with existing improvements and the natural surroundings. The ARC may disapprove the construction or design of an improvement on purely aesthetic grounds where, in its judgment, such disapproval is required to protect the continuity of design or values of the Subdivision and of other Owners, or to preserve the serenity and natural beauty of any surroundings. Prior judgments regarding such matters of design or aesthetics shall not be deemed binding upon the ARC if the ARC feels that the repetition of such matters will have an adverse effect on the Subdivision.

Section 4. ARC Approval Required. No Improvement shall be erected, constructed, placed, altered (either by addition or deletion), maintained or permitted to remain on any Tract until plans and specifications, in such form and detail as the ARC may deem necessary, shall have been submitted to and approved in writing by the ARC. The ARC shall have the power to employ professional consultants to assist it in discharging its duties, with the reasonable costs and fees of such professional consultants to be paid by the applicant for the permit. The decision of the ARC shall be final, conclusive, and binding upon the applicant.

Section 5. Procedures. The ARC may, but is not obligated to, establish and publish from time to time reasonable administrative procedures and separate building guidelines covering Improvements and exterior lighting.

Section 6. Design Submittal. The Owner must submit a design plan, which must adequately reflect to the ARC the true design quality of the proposed work. Final exterior plans and specifications shall be submitted in complete form in duplicate and shall include (i) all elevations of any proposed structure(s) (including walls, signs, pools, pool buildings, barns, pens, etc.), roof height, specification of materials, textures and shapes, and (ii) a site plan showing the general location of all proposed and existing improvements, the dimensions and shapes of all proposed and existing improvements, and identifying any trees to be cut in connection with the proposed work. All exterior measurements and dimensions must be shown (1/4" = 1' minimum). Description of materials and finishes must be clearly indicated.

Section 7. Basis of Approval. Approval of preliminary design plans and final plans and specifications shall be based upon the following:

- (a) The architectural design.
- (b) Harmony and conformity of the design with the surroundings both natural and built.
- (c) Adequacy of the design to conditions of the site.
- (d) Conformity to specific and general intent of the restrictive covenants set forth in this Declaration.

Section 8. Variances. Upon submission of a written request for same, the ARC may, from time to time, in its sole discretion, permit Owners to construct, erect, or install improvements which are in variance from the covenants, restrictions, setback or architectural standards which are provided in this Declaration or those which may be promulgated in the future. In any case, however, such variances must, in the ARC's sole discretion, blend effectively with the general architectural style and design of the Subdivision and must not detrimentally affect the integrity of the Subdivision, nor harmony with the natural surroundings. No member of the ARC shall be liable to any Owner for claims, causes of action or damages arising out of the grant of any variance to an Owner. Each request for a variance submitted hereunder shall be reviewed separately and apart from other such requests and the grant of a variance to any Owner shall not constitute a waiver of the ARC's right to strictly enforce the covenants, restrictions and architectural standards provided hereunder, against any other Owner.

Section 9. Issuance of Building Permit. Upon approval of final submittals, a building permit will be issued and construction may begin. All such permits must be prominently displayed at the job site.

Section 10. Failure of ARC to Act. If the ARC fails to approve or to disapprove either the preliminary design plans or the final plans and specifications or to reject them as being inadequate within thirty (30) days after submittal thereof, it shall be conclusively presumed that such ARC has approved such preliminary design plan or such final plans and specifications. If preliminary design plans or final plans and specifications are not sufficiently complete or are otherwise inadequate, the ARC may reject them as being inadequate or may approve or disapprove part, conditionally or unconditionally, and reject the balance.

Section 11. Limitation of Liability. Neither the Declarant, nor the ARC, nor any of the members of the ARC, shall be liable in damages or otherwise to anyone submitting plans and specifications for approval, to any Owner or to any other person or entity by reason of the exercise of or the failure of the ARC to exercise any of its rights and powers hereunder, including without limitation: (i) the approval or disapproval of any plans and specifications,

(ii) the approval or disapproval of any variances, (iii) the failure to take action with respect to any plans and specifications or the construction of any improvements on any Tract, or (iv) the construction or performance of any work on any Tract, whether or not pursuant to any approved plans or specifications. Review and approvals by the ARC are for the purposes of the protection and maintenance of the aesthetic and ecological quality of the Property, and not for the purposes of determining the adequacy of the engineering, structural integrity, quality of construction, soundness of construction, safety of plans or construction, code compliance, compliance with any other laws, rules or regulations applicable to the improvement or the construction, or any other matters involving the plans, specifications or construction of the improvements ("Construction Matters"). Consequently, and without limiting the generality of the foregoing provisions of this section, neither the Declarant, nor the ARC, nor any of the members of the ARC, shall be liable in damages or otherwise to anyone for any causes of action, claims, debts, demands, losses, costs, damages, expenses, obligations or other liabilities arising out of or in any way related to any Construction Matters.

ARTICLE V.

TERM

The covenants and restrictions set forth in this Declaration are made and adopted to run with the land and shall be binding upon the undersigned and all parties and persons claiming through and under them until January 1, 2047, at which time said covenants and restrictions shall be automatically extended for successive periods of ten (10) years unless and until an instrument executed by Owners of at least sixty-seven percent (67%) of the Tracts has been recorded agreeing to terminate said covenants and restrictions in whole or in part; provided that, if Declarant owns any interest in the Property at the time, the covenants and restrictions may only be terminated if the Declarant joins in executing such instrument.

ARTICLE VI.

ENFORCEMENT

Section 1. Right of Enforcement. Declarant, its successors or assigns, or any Owner, shall have the right to enforce, by proceedings at law or in equity, the terms, provisions, covenants, conditions, and restrictions of this Declaration. Failure of Declarant or any Owner to take any action upon any breach or default shall not be deemed a waiver of their right to take action upon any subsequent breach or default. Declarant, for itself, its successors or assigns, reserves the right to enforce this Declaration, though it may have previously sold and conveyed all Tracts controlled hereby. The reservation by Declarant of this right of enforcement shall not create a duty or obligation of any kind to enforce same, and Declarant shall not be subjected to any claim, demand, or cause of action from any Owner by virtue of not enforcing any term, provision, covenant, condition or restrictions herein contained.

ARTICLE VII.

PARTIAL INVALIDITY

The invalidation of any of the terms, provisions, covenants, conditions or restrictions contained in this Declaration, by judgment, court order, operation of law or otherwise, shall in no way affect the validity any of the other terms, provisions, covenants, conditions or restrictions hereof, which shall remain in full force and effect.

ARTICLE VIII.

AMENDMENT

(a) Except as otherwise provided herein, as long as Declarant owns any interest in the Property, the Declarant and the Owners (but expressly excluding their respective mortgagee's, if any) of at least fifty percent (50%) of the Tracts may amend this Declaration, by executing and filing an instrument containing such amendment, in the office of the County Clerk of Gillespie County, Texas. Except as otherwise provided herein, from and after the date that Declarant no longer owns any interest in the Property, the Owners (but expressly excluding their respective mortgagee's, if any) of at least eighty percent (80%) of the Tracts may amend this Declaration by executing and filing an instrument containing such amendment, in the office of the County Clerk of Gillespie County, Texas.

(b) Notwithstanding anything to the contrary, as long as Declarant retains an ownership interest in the property, Declarant shall have the right at any time, at its sole discretion and without any joinder or consent of any other party, to amend this Declaration for the purposes of correcting any error, ambiguity or inconsistency appearing herein or for any reason whatsoever deemed necessary for the benefit of the overall development as determined by Declarant in the exercise of its good faith judgment. Said amendment shall be effective upon filing of the instrument containing such amendment in the office of the County Clerk of Gillespie County, Texas.

ARTICLE IX.

WAIVER AND LACHES

The obligation to abide by the provisions contained in this Declaration shall be deemed to be of a continuing and continual basis. Each and every day an Owner allows a condition to exist on such Owner's Tract which is not in compliance with the requirements contained herein shall constitute a separate and individual violation hereof, and shall give rise to a new cause of action for such breach. The intended effect and express purpose of this provision shall be that every Owner, by accepting title to a Tract, hereby waives the affirmative defenses of the statute of limitations, waiver and laches with respect to covenant violations. Noncompliant conditions shall be allowed to exist on a Tract only upon the Owner obtaining a written variance in

accordance with the applicable provisions herein. Failure of Declarant, the ARC, or of any Owner to enforce the terms of this Declaration shall in no event be deemed a waiver of the right to do so thereafter.

EXECUTED by said Declarant, this 17th day of OCTOBER, 2017.
