Wetland Determination Identifiers

- Restricted Use
- Unrestricted
- Exempt from Conservation Compliance Provisions

Notice: For acreage reporting purposes, a map notated with mandatory producer-supplied crop information is required to be provided by the final reporting date. Specific FSA programs require all cropland on all farms to be reported. Electronic data sharing of ACRIS-approved crops and common data elements with AIPs begins in 2016 and happens automatically for producers when a crop insurance policy is in force. Producers must still visit FSA and insurance agents to verify and sign acreage reporting documents by the final reporting date.
Disclaimer: Wetland identifiers do not represent size, shape, or specific determination of area. Refer to your original determination (CPA-025 and attached maps) for exact wetland boundaries and determinations, or contact NRCS.
