

FM 530

This is an aerial photograph of a rural landscape. A large, irregularly shaped area is outlined with a thick red dashed line. The area is primarily green, suggesting grass or low vegetation, with some darker patches of trees or shrubs. To the left of the outlined area, there is a large, dense forest. To the right, there are several large, light-colored rectangular areas, possibly water bodies or bare fields. The overall terrain appears to be flat. Two labels, 'FM 530' and 'CR 17', are present in yellow callout boxes. 'FM 530' is located on the left side, pointing to a road. 'CR 17' is located on the right side, pointing to a road. The red dashed line follows a path that starts near the top right, goes down, then left, then up, and finally right, enclosing a large area of land.

CR 17
