Restoration of Rare or Declining Natural Communities (643)

SAFE-CP38E: (Pollinator and Monarch SAFE) Establishment of Permanent Introduced Grasses. These fields will be seeded to permanent introduced grasses, legumes and native forbs according to the specific CP38E-1 seed mix. Refer to Wisconsin Job Sheet 134 to establish the seeding. Weeds and brush must be controlled as needed by spraying, burning, or mowing until the seeding is certified as established (may require up to 3 years of intensive management). The cover shall be maintained for the life of the contract per Wisconsin Job Sheet 397. CRP rules do not allow disturbance of cover including maintenance or required management during the primary nesting season (May 15 through August 1) per the CRP contract. Spot clipping or spot spraying may be done during the primary nesting season with prior approval from the local FSA Service Agency (FSA) County Committee (COC).
