

High-speed wireless internet connection is available through Unlimitedville cellular plans or other local options (HardyNet, Dish Network) can be installed.

The cabin is equipped with a Wi-Fi 'Google Nest Thermostat' that allows for automatic heating and cooling schedules and adjusting temperatures remotely from your smart phone.

'Blink' wireless outdoor security camera system is installed on the front and back of the cabin, allowing for remote access to a video stream and motion-activated alerts to your smart phone.

The kitchen includes a gourmet AGA brand oven with three independent cast iron cooking compartments with broiling, baking, convection, and warming functionality and a glass cooktop includes six adjustable electric heating elements.
