Hi Joe,

Typical prices are \$15-\$20 per acre depending on the area, but can go much higher. There are areas where it goes as high as \$50+ per acre.

We have a price estimation calculator where you can view prices, number of hunters in your area and their average lease budgets here:

<https://www.hlrbo.com/howmuch>

Please let me know if you have any questions. Happy to help.

Thanks,
Heath

Out of curiosity, how much would one normally get for this size of land to hunt?
