Subject: What I love

What I love about 333 Rainbows End:

- quiet...so quiet. No cars, no ambulances, no neighbors sounds, rarely does a plane go over. House set way back from a quiet road that only direct neighbors use
- peaceful and serene
- tons of birds
- Rec trail allows me to get long walks and mountain bike rides through the woods without ever leaving the property
- the magnificent tree canopy
- the house is tidy and low-maintenance
- electric bills rarely reach \$150/mo even during the hottest summer months
- great neighbors that look out for each other
- neighbors horse riding down the streets
- miles and miles of roads to walk and run on
- wildflowers go crazy in April and May
- starry skies at night...no light pollution at all
- lots of safe, fenced-in room for any animals. My dogs get to be dogs
- the pool ♥☐
- the porch year-round
