

Activities

On-Site

Bike over packed sand and gravel, grassy flats, or root-bound single track. There's a little something for everyone on our 7 miles of mixed-use trails.

Take a hike and appreciate all that nature has to offer. Start in our unique gardens and make your way through a diverse and ever-changing landscape.

Cool off in the brisk Coldwater Creek. With 4 primary sandbars and 1.5 miles of creek front property, there's plenty of space for everyone.

Enjoy the flora and fauna of Northwest Florida! There are always spectacular things to see while exploring the 350 acres.

Let the kids loose on the playground.

Visit the bunnies right next to the playground. You're welcome to pick them up and hang out in the hammocks!

Explore the gardens to see unique agriculture techniques that include aquaponics, hydroponics, shiitake mushrooms, honey bees, vermiculture, and chickens!

Wildlife is in abundance across the property! White tail deer, a wide range of birds, reptiles, and insects alike call this place home.

Kayaking, canoeing, or paddle boarding—it's all great on Coldwater Creek. There are outfitters in the area with portage services, or you can bring your own gear. You will need two vehicles for longer trips.

Start at the north sandbar and float to the south sandbar! We have tubes for sale, or you can bring your own.

Coldwater Creek offers up some bream, small mouth bass, and channel catfish.

There are plenty of great picnic spots across the property. The south sandbar has a community-use charcoal grill and picnic table.
