## Sec. 3.11. - Permitted uses.

Lands zoned in accordance with this Division shall be limited to the uses indicated as permitted in Tables 3.11.1, 3.11.2 and 3.11.3. A "P" indicates that the use is permitted within that zoning district provided that the use can be developed in accordance with the requirements set forth in Divisions 3 and 4 and all other applicable requirements of this Article and the LDR.

(Ord. No. 608, pt. 1, 3-19-2002; Ord. No. 623, pt. 1, 11-5-2002)

## **LAND USE**

- (2) *Residential Estate densities (two units per acre).* Residential Estate densities are primarily assigned to established, stable residential areas with a density up to two units per gross acre in the Primary Urban Service District. These areas are generally on the fringe of the PUSD and lack accessibility to a full complement of urban services. The CGMP also assigns estate densities to selected areas near existing estate development that share similar characteristics with existing residential estates and to areas in the urban service districts that require density limitations because of unique problems of urban services. In reviewing specific densities, the aim shall be to preserve the stability and integrity of established residential development and provide equitable treatment to lands sharing similar characteristics. Landscaping, screening, buffering and similar design techniques shall be used to assure a smooth transition between residential structure types and densities. Existing agricultural uses in this land use designation shall be allowed to continue in a nonconforming status.
