

Per the president of the Road Maintenance Fund:

Sure! Still working on breaking with Empire South to manage on our own. Also have attorney involved now to write letter to Developer to try to get them to contribute as much as possible to fix the roads. Once complete and fixed, new annual Road Fund dues will be \$500 to \$600. Which is actually LOWER than the other 3 developments in our area built by the same developer, which started out at \$650 a year compared to our \$150.
