Entering this 7,500 square foot, home, with a 1000 square foot additional guest quarter above the garage one is simply struck by the craftsmanship embodied in this luxury log cabin. The exterior foundation of the house features 3 1/2' tall natural rock foundation from a local source. The home is made from Canadian Western Red Cedar logs, some of which are the largest logs ever provided by Pioneer Log Homes with several more than 3 feet in diameter. The 3 beautiful fireplaces also feature native rock. The 2 story living room fireplace mantel was sliced out of a giant boulder from a local quarry & weighs 1400 lbs. Also, a 20 foot tall great tree stands at the center of the living room. Details include natural stone, hand scraped maple floors, Norwegian hand carved front door, wood casement windows, granite counter tops, and solid wood doors throughout. Master Suite is complete with on-suite bathroom featuring soaking tub, glass stall shower, walk-in closet, & phenomenal views. Expansive lower level features a living room, stone fireplace, partial kitchen, 2 large master suites, with double sink bathrooms, & private patios off each bedroom.
