June 13, 2005

Hampshire County Planning Commission  
PO Box 883  
Romney, WV 26757

Dear Sirs;

This office has reviewed a plat of survey for Sue Kinyon to create a lot J located in Orchard Point Subdivision and further referenced as Tax Map 13, Parcel 283, Deed book 364, Page 348. This lot totals 22.023 acres.

All lots require a percolation test and a sewage disposal reserve area of 10,000 square feet where no development or structures other than the septic system shall be permitted. This lot is to be developed with an individual well and septic to serve a single-family dwelling.

Percolation test results are within limits as set forth by West Virginia CSR 16-1. Six feet soil observation holes indicate no restrictions due to water table or shallow bedrock within the designated sewage disposal area except as noted on the Health Department subdivision application.

The plat survey dated June 13, 2005 is hereby approved for a Class I septic system by the Hampshire County Health Department. Any changes or revisions to the Health Department stamped and signed plat, or subsequent final plat approved based upon the approved plat, will make this approval null and void.

This approval is not a permit for individual water systems or individual sewer systems. Applications for permits must be made separately to the Hampshire County Health Department.

Sincerely,

A handwritten signature in cursive script, appearing to read "Denson Taketa", is written over a horizontal line.

Denson Taketa

cc: Sue Kinyon
