## About the Real Estate

If you are looking for a world class hunting property in central Illinois, we may have just what you are looking for.

Located 4 miles west of Chillicothe, this 78+/- acre tract lays perfectly to consistently harvest mature whitetails. The area in and around this farm is largely timber, so the holding power of this area is high. Not only is the deer density high, but there are approximately 460 acres of The Pleasure Driveway & Park District of Peoria that either borders this farm or in a close proximity that does not allow hunting. What that means is a buck can grow old and an old buck in this part of the country can be a mega giant!

There are 15+/- acres of open ground that creates nice areas for food plots. The timber has not been harvested in over 30 years, creating a possibility of a timber harvest to help ease the cost of ownership. The various species of oak that are scattered throughout the farm consistently provide a good mast crop for the deer and turkey.

In addition to the land, there is a large partially completed home on the property located off of a hard road. The home is a brick 4 bedroom 4 bath with a possible 5th bedroom above the garage. It has brick siding, two furnaces, central air, hot water heater and a wood burning furnace to provide basement floor heating for those central Illinois winters. The kitchen is equipped with a reverse osmosis filtration system. Let's not forget, there is also a small stocked pond a short distance from the house for the new owners enjoyment.

Peoria County 78+/- is located approximately 25 miles from Peoria, 65 miles from Bloomington and 150 miles from downtown Chicago.
