7219	Burchard clay	16.86	10.6%	59

Weighted Average 65.5

About The Property

Peoples Company is excited to offer this Burt County highly productive farm ground consisting of 160 dryland acres m/l located three miles east and one mile north from Lyons, NE. The farm has been in the family since the 1960's with soil conservation practices as a cornerstone in farming decisions. The farm consists of 158.58 FSA cropland acres. The farmland's NCCPI overall rating is 65.5 with primary soil types of Crofton silt loam, Nora silt loam, and Moody silty clay loam. The land is planted to corn for the 2022 crop year after five years of producing alfalfa. A terrace reconstruction upgrade was completed in 2015 to continue and improve the soil conversation of the farm. The parcel can be accessed from the west and north via gravel roads providing easy access for today's farm equipment. The homestead was removed in

several stages and was completely eliminated by 2016. The well on the homestead was professionally capped in cooperation with the NRCS during that time.

The farm has a current lease for the 2022 crop season and will become available for farming for the 2023 crop year. The opportunity for additional 2022 income from this year's crop is due to a flex lease addition to the cash rent contract. While the flex lease bonus is not guaranteed, a Dec 1, 2022, payout is possible if the flex lease requirements are met. The official end of the current lease is February 28, 2023.
