Dear Potential Buyer looking at 790 Lost Valley Rd

My name is Kenna, and my husband Logan and I have been enjoying this Dripping Springs oasis since 2016. This has been the perfect place to raise our growing family. We have done many improvements to turn this house into a home. My husband's job requirements changed and we need to relocate. Thank goodness we are staying in the Dripping Springs School District, which is phenomenal!

We love to cook in our newly upgraded kitchen and have friends over to play darts in the detached entertaining space. Many 100° days have been spent cooling off in Sycamore Creek right out the back gate or splashing in our pool. On cooler days, we have amazing hiking opportunities. Our kids love when we camp on our land (we usually invite our neighbors, who have become our friends).

We hope you love this property as much as we do!
