Property Description

Once you enter the ranch; you overlook the beautiful lake that is surrounded by large hardwood trees on three sides. The large dam is on the north end of the property with a large drainage area into the lake from the south. The water quality of the lake is very good with bass fishing being considered excellent. The property has been high-fenced on three sides with the remaining portion left for the next owner to decide on what type of fence they would prefer.

The current owner has cleared much of the undergrowth to expose the large Oak Trees and rolling terrain. The topography is amazing once you enter the property and drive back through the trees along the lake shore.
