SANDRA TREIBER
PO BOX 848
PEARCE, AZ 85625

Registration No. 55- 238159
File Number: D(17-24) 21 CDA

Dear Well Applicant:

Enclosed is a copy of the Notice of Intention to Drill (NOI) a well which you or your driller recently filed with the Department of Water Resources. This letter is to inform you that the Department has approved the NOI and has mailed, or made available for download, a drilling authorization card to your designated well drilling contractor. The driller may not begin drilling until he/she has received the authorization, and must keep it in their possession at the well site during drilling. Although the issuance of this drill card authorizes you to drill the proposed well under state law, the drilling of the well may be subject to restrictions or regulations imposed by other entities.

Well drilling activities must be completed within one year after the date the NOI was filed with the Department. If drilling is not completed within one year, a new NOI must be filed and authorization from this Department received before proceeding with drilling. If the well cannot be successfully completed as initially intended (dry hole, cave in, lost tools, etc.), the well must be properly abandoned and a Well Abandonment Completion Report must be filed by your driller [as required by A.A.C. R12-15-816(F)].

If you change drillers, you must notify the Department of the new driller's identity on a Request to Change Well Drilling Contractor (form 55-71B). Please ensure that the new driller is licensed by the Department to drill the type of well you require. A new driller may not begin drilling until he/she receives a new drilling authorization card from the Department. Forms may be obtained by contacting the Department, or online at: <https://new.azwater.gov/permitting-wells/well-forms-and-applications>.

If you find it necessary to change the location of the proposed well(s), you may not proceed with drilling until you file an amended NOI with the Department. An amended drilling authorization card will then be issued to the well drilling contractor, which must be in their possession before drilling begins.

Arizona statute [A.R.S. § 45-600] requires registered well owners to file a Pump Installation Completion Report (form 55-56) with the Department within 30 days after the installation of pumping equipment, if authorized. A blank report is enclosed for your convenience. State statute also requires the driller to file a complete and accurate Well Drillers Report and Well Log (form 55-55) within 30 days after completion of drilling. A blank report form was provided to your driller with the drilling authorization card. You should insist and ensure that all of the required reports are accurately completed and timely filed with the Department.

Please be advised that Arizona statute [A.R.S. § 45-593(C)] requires a registered well owner to notify the Department of a change in ownership of the well and/or information pertaining to the physical characteristics of the well in order to keep this well registration file current and accurate. Any change in well information must be filed on a Request to Change Well Information form (form 55-71A). Forms may be obtained by contacting the Department, or online at: <https://new.azwater.gov/permitting-wells/well-forms-and-applications>.

Sincerely,

Groundwater Permitting and Wells Section

NOTICE

Re: NOTICE OF PROHIBITION ON IRRIGATION OF NEW ACRES

Well Applicant:

You are receiving this notice because you were issued a drill card to drill a well within the Willcox Groundwater Basin, and withdrawals may be affected by a temporary prohibition on the irrigation of new acres within the basin.

In response to a petition that was filed by residents pursuant to A.R.S. § 45-415, on August 30, 2022, the Board of Supervisors of Cochise County and Graham County called for an election to be held on November 8, 2022, on whether to designate the basin as an active management area ("A.M.A.").

Pursuant to A.R.S. § 45-416, only those lands that were legally irrigated in the five years preceding the call for the election (August 30, 2022) may be irrigated within the basin. "Irrigate" means to apply water to two or more acres of land to produce plants or parts of plants for sale or human consumption, or for use as feed for livestock, range livestock, or poultry. A.R.S. § 45-402. This prohibition will remain in effect until the results of the election are certified.

If the election results in the designation of an A.M.A., the prohibition on irrigation of new acres within the basin (with certain limited exceptions) would remain in effect permanently. Additionally, if an A.M.A. is designated, a person may withdraw groundwater from a well having a pump with a maximum capacity greater than 35 gallons per minute ("non-exempt well") only if the person holds a right or permit to withdraw the groundwater. Generally, within an A.M.A., a person may withdraw groundwater for a non-irrigation use from a well having a pump with a maximum pump capacity of 35 gallons per minute or less ("exempt well") without a right or permit. However, there are some limitations on the use of exempt wells within A.M.A.s. For more information about regulations in A.M.A.s, please see our Frequently Asked Questions page at <https://new.azwater.gov/ama/faqs-willcox-ama>.

If the election does not result in the designation of an A.M.A., the temporary prohibition on the irrigation of new acres within the sub-basin will be lifted.

ISSUANCE OF A DRILL CARD PENDING THE ELECTION SHOULD NOT BE TAKEN AS A DETERMINATION BY ADWR THAT YOU ARE LEGALLY ENTITLED TO IRRIGATE LANDS PENDING THE ELECTION RESULTS OR THAT YOU WILL BE LEGALLY ENTITLED TO IRRIGATE LANDS OR OTHERWISE WITHDRAW GROUNDWATER IF AN A.M.A. IS DESIGNATED.

If you have any questions, please call Doug MacEachern, Communication Administrator, at 602-771-8507.

RECEIVED

Notice of Intention to

\$150 or
\$100 FEE

Drill, Deepen, Replace or Modify a Well

(Exception-Non-Exempt Well in an Active Management Area)

- Review instructions prior to completing form in black or blue ink.
- You must include with your Notice:
 - Check or money order in the amount of the appropriate filing fee.
 - For a well located within an AMA or INA, the fee is \$150.00.
 - For a well not located within an AMA or INA, the fee is \$100.00 if the well will be used solely for domestic purposes (see page 2 and instructions) and will have a pump with a maximum capacity of not more than 35 gallons per minute. Otherwise, the fee is \$150.00.
- Shared wells: While Arizona water law governs how a well subject to a well sharing agreement is to be drilled and located, it DOES NOT govern the operation or management of a well sharing agreement.
- Authority for fee: A.R.S. § 45-596 and A.A.C. R12-15-104.

Other Uses of Water

CHECK ALL THAT APPLY

- ☐ Irrigation
☐ Commercial
☐ Domestic
☐ Municipal
☐ Industrial
☐ Stock
☐ Remediation
☐ Dewatering
☐ Other (please specify):

*Pursuant to ARS § 45-402(23) Irrigation is defined as applying water to two or more acres of land to produce plants or parts of plants for sale or human consumption, or for use as feed for livestock, range livestock or poultry.

NOTE: If this is a Notice of Intent to construct a new well that will be used for the purpose of withdrawing groundwater for transportation to an Active Management Area (AMA) pursuant to A.R.S. § 45-552, 45-553, 45-554 or 45-555(A), the authorization to drill the well issued in association with this Notice **shall not be considered the approval to transport groundwater to an AMA.** (See instructions)

SECTION 7. PROPOSED WELL CONSTRUCTION DESIGN (attach separate sheet if needed)

Borehole			Casing														
DEPTH FROM SURFACE		BOREHOLE DIAMETER (inches)	DEPTH FROM SURFACE		OUTER DIAMETER (inches)	MATERIAL TYPE (T)				PERFORATION TYPE (T)						GROUTING MATERIAL	
FROM (feet)	TO (feet)		FROM (feet)	TO (feet)		STEEL	PVC	ABS	IF OTHER TYPE, DESCRIBE	BLANK OR NONE	WIRE WRAP	SHUTTER SCREEN	MILLS KNIFE	SLOTTED	IF OTHER TYPE, DESCRIBE		
0	20'	12"	0	20'	8 5/8"	X											CEMENT
20'	600'	8"	0	540'	6"	X				X							
			540'	600'	6"	X								X			

* ADWR well construction standards require a surface seal consisting of a minimum of 20 feet of steel casing. Cement grout must be used to fill the annular space between the surface casing and the borehole. (A.A.C. R12-15-811(B))

The Department's issuance of an authorization to drill a well is not a determination of whether water withdrawn from the well is legally surface water or groundwater. The legal nature of the water withdrawn from the well may be the subject of court action in the future as part of a determination of surface water rights in your area. If there are court proceedings that could affect your well, you will be notified and be given the opportunity to participate. If you have questions regarding the legal nature of the water to be withdrawn from your proposed well, please consult with an experienced civil engineer, hydrologist or water rights attorney.

For the purposes of determining appropriate fees outside AMAs or INAs, "domestic purposes" is defined as "uses related to the supply, service and activities of households and private residences and includes the application of water to less than 2 acres of land to produce plants or parts of plants for sale or human consumption, or for use as feed for livestock, range livestock or poultry, as such terms are defined in A.R.S. § 3-1201."
