Corridor E Studies

Location Four, north-south segments starting at I-35 north of Jarrell and ending at US 79 through Precincts 3 and 4.

Description The County is conducting the Corridor E Planning & ROW Preservation Study as part of a planned ultimate controlled-access roadway in the central part of the County as an alternative north/south transportation corridor to IH 35. This study is made up of four segments that are a part of the County's **Long-Range Transportation Plan**. All four segment studies were funded via the voter-approved 2019 Road Bond; however, there is no right-of-way or construction funding identified for any of the segments at this time. This study will serve as an important planning step to accommodate current and anticipated traffic levels to provide reliable transportation as the county continues to grow. By planning ahead, the County can best coordinate with property owners, businesses, and the community.

Corridor E2 Planning & ROW Preservation Study

Location Between US 79 and Chandler Rd

Project Limits and Length From US 79 to Chandler Rd, approximately 3.6 miles long

Status The engineer, BGE, Inc., is working on the study and schematic design of the Corridor, which is anticipated to be complete in early 2022. Property owner outreach is expected to be completed later this year.

Corridor E3 Planning & ROW Preservation Study

Location Between Chandler Rd and future SH 29

Project Limits and Length From Chandler Rd to future SH 29, approximately 4 miles long

Status The engineer, BGE, Inc., is working on the study and schematic design of the Corridor, which is anticipated to be complete in early 2022. Property owner outreach will kick off later this year..

Corridor E4 Planning & ROW Preservation Study

Location **Location:** Between future SH 29 and Ronald Reagan Extension/Corridor D

Project Limits and Length From future SH 29 to Ronald Reagan Extension/Corridor D, approximately 5.5 miles long

Status The engineer, Halff & Associates, is working on the study and schematic design of the Corridor, which is anticipated to be complete in early 2022. Property owner outreach will kick off later this year.

Corridor E5 Planning & ROW Preservation Study

Location Between CR 305 and CR 330

Project Limits and Length From CR 305 at IH 35 to CR 330, approximately 9 miles long

Status The engineer, American Structure Point, is working on the study and schematic design of the Corridor, which is anticipated to be complete in early 2022. Property owner outreach is expected to be completed later this year.

Ronald Reagan Extension

Location: Ronald Reagan Extension from IH 35 to SH 95 in Precinct 3 and 4.

Overview: Williamson County is conducting a study to develop a plan for improvements for Ronald Reagan Boulevard between IH 35 and SH 95, referred to as Corridor D. The purpose of the study is to identify an east/west connector between IH 35 and SH 95. This study will serve as an important planning step to accommodate current and anticipated future traffic levels to provide reliable transportation as the County continues to grow. By planning ahead, the County can best coordinate with property owners, businesses and the community.

Status: Over the past year, Halff Associates, Inc. has developed an alignment to provide a safe and effective connection between IH 35 and SH 95. This study has involved desktop research, conducting engineering surveys and field team analysis, and gathering input from impacted property owners. Refinements have been made to the alignment based on field reviews and stakeholder feedback.

The new alignment has been incorporated into the draft **Long Range Transportation Plan**, which is anticipated to be placed on the Commissioners Court agenda for adoption later this month. Schematic design is expected to be complete this fall. There is no funding for construction at this time. The road will be built as growth necessitates and funding is secured. It could be several decades before the entire Ronald Reagan Extension is built.

Information About Brokerage Services

Texas law requires all real estate licensees to give the following information about brokerage services to prospective buyers, tenants, sellers and landlords.

TYPES OF REAL ESTATE LICENSE HOLDERS:

- **A BROKER** is responsible for all brokerage activities, including acts performed by sales agents sponsored by the broker.
- **A SALES AGENT** must be sponsored by a broker and works with clients on behalf of the broker.

A BROKER'S MINIMUM DUTIES REQUIRED BY LAW (A client is the person or party that the broker represents):

- Put the interests of the client above all others, including the broker's own interests;
- Inform the client of any material information about the property or transaction received by the broker;
- Answer the client's questions and present any offer to or counter-offer from the client; and
- Treat all parties to a real estate transaction honestly and fairly.

A LICENSE HOLDER CAN REPRESENT A PARTY IN A REAL ESTATE TRANSACTION:

AS AGENT FOR OWNER (SELLER/LANDLORD): The broker becomes the property owner's agent through an agreement with the owner, usually in a written listing to sell or property management agreement. An owner's agent must perform the broker's minimum duties above and must inform the owner of any material information about the property or transaction known by the agent, including information disclosed to the agent or subagent by the buyer or buyer's agent.

AS AGENT FOR BUYER/TENANT: The broker becomes the buyer/tenant's agent by agreeing to represent the buyer, usually through a written representation agreement. A buyer's agent must perform the broker's minimum duties above and must inform the buyer of any material information about the property or transaction known by the agent, including information disclosed to the agent by the seller or seller's agent.

AS AGENT FOR BOTH - INTERMEDIARY: To act as an intermediary between the parties the broker must first obtain the written agreement of each party to the transaction. The written agreement must state who will pay the broker and, in conspicuous bold or underlined print, set forth the broker's obligations as an intermediary. A broker who acts as an intermediary:

- Must treat all parties to the transaction impartially and fairly;
- May, with the parties' written consent, appoint a different license holder associated with the broker to each party (owner and buyer) to communicate with, provide opinions and advice to, and carry out the instructions of each party to the transaction.
- Must not, unless specifically authorized in writing to do so by the party, disclose:
 - that the owner will accept a price less than the written asking price;
 - that the buyer/tenant will pay a price greater than the price submitted in a written offer; and
 - any confidential information or any other information that a party specifically instructs the broker in writing not to disclose, unless required to do so by law.

AS SUBAGENT: A license holder acts as a subagent when aiding a buyer in a transaction without an agreement to represent the buyer. A subagent can assist the buyer but does not represent the buyer and must place the interests of the owner first.

TO AVOID DISPUTES, ALL AGREEMENTS BETWEEN YOU AND A BROKER SHOULD BE IN WRITING AND CLEARLY ESTABLISH:

- The broker's duties and responsibilities to you, and your obligations under the representation agreement.
- Who will pay the broker for services provided to you, when payment will be made and how the payment will be calculated.

LICENSE HOLDER CONTACT INFORMATION: This notice is being provided for information purposes. It does not create an obligation for you to use the broker's services. Please acknowledge receipt of this notice below and retain a copy for your records.
