

DELINEATION NOTES:

1. In-field wetland delineation performed 11/13-16, 2023 by Karen Dodson, PWD, VSWD, CE, and Kyle Zinn, WPIT, CFA.
2. Locations depicted are GPS located and do not constitute a survey.
3. Limits of wetlands & WOUS are subject to confirmation by the USACE.
4. This feature continues outside of the site boundary.
5. The word "Approximate" used in this attachment relates to features that were not flagged in the field but rather sketched in according to site conditions at the time of field work and related topography in the area.
