SEE
INSPECTIONS INC.

(303) 857-6490 professional inspections over 22 years

Date: 2-14-02

Client: _____

(Client is given original report. Any needed copies should be obtained through client, since inspector keeps only a carbon.)

This is to certify that the foundation and central ground support only at the following property has/have been inspected by myself on 2-14-02.

Property Address: 11758 WCR 19

Opinion: Poured concrete and concrete block perimeter foundation walls, and interior concrete-pillar ground supports for this residence are all considered to be of very good structural soundness, and need no structural modifications.
