Sheela Noble,

On Tuesday, July 30, 2024, HPWD employee Robert Triggs performed a flow test and water level check at the property located at 66th St and CR 1300 in Lubbock, TX. The result from the well measurement was a water level of 155.50 ft to water. The flow test showed the well pumped 15 GPM.

If you have any further questions feel free to contact me.

Thank You

Billy Barron
