60 +/- ACRES
TERRELL COUNTY , GA

Cypress Lodge is a custom-built log home located on the outskirts of Dawson, Ga on 60 acres of manicured pine forest. The 2,600 square feet consist of 3 bedrooms, 2 full bathrooms, and a large great room. A stone fireplace, a standing seam metal roof, and an open concept with very high ceilings are just a few of the many features. Red cypress logs in which the house was constructed weigh more than 9,900 pounds each. The interior walls and ceilings are also made from the same red cypress wood. True to authentic log construction, the home is very energy efficient and virtually indestructible. Custom-built furniture was made exclusively for this unique home making it move-in ready for a new owner.

Also Included with this property is a 30x60 metal shop with a bathroom. A roll-up door, side doors, and heat/AC make this shop ready to take on any project. Two 12x20 covered camper spaces and two additional camper hookups are included with a camper. The 60-acre property features deer stands and feeders offering excellent deer hunting opportunities. A 45 hp Kubota 4x4 tractor with implements are included with numerous other pieces of equipment and tools. These detailed items are shown on the attached document.
