TRACT 1 - COMBINATION FARM

This is a sizable combination farm that has a good mix of non-irrigated cropland and pasture. Roads around the majority of the farm allow for good access. The pasture is well-fenced, with cross fencing to allow for rotational grazing. Several ponds and dams provide water for livestock throughout the pasture. Additionally, there is a well located at the southern end of the property within the corrals, which is powered by a solar panel. The solar panel is owned by the tenant and is not included in the sale. All water tanks that hold water are owned by the tenant and are not included in the sale.
