"Floodway" means an area that is identified on the flood insurance rate map as a regulatory floodway, which includes the channel of a river or other watercourse and the adjacent land areas that must be reserved for the discharge of a base flood, also referred to as a 100-year flood, without cumulatively increasing the water surface elevation of more than a designated height.  "Reservoir" means a water impoundment project operated by the United States Army Corps of Engineers that is intended to retain water or delay the runoff of water in a designated surface area of land.  7. Have you (Seller) ever filed a claim for flood damage-to the property with any insurance provider, including the National Flood Insurance. Even when not required, the Federal Emergency Management Agency (FEMA) encourages homeowners high risk, moderate risk, and low risk flood zones to purchase flood insurance that covers the structure(s).		If the answer to any of the above is yes, explain (attach additional sheets if necessary):						
*Homes in high risk flood zones with mortgages from federally regulated or insured lenders are required to h flood insurance. Even when not required, the Federal Emergency Management Agency (FEMA) encourages homeowners high risk, moderate risk, and low risk flood zones to purchase flood insurance that covers the structure(s) and the person property within the structure(s).  8. Have you (Seller) ever received assistance from FEMA or the U.S. Small Business Administration (SBA) for flood damage to		(B) has a one percent annual chance of flooding, which is considered to be a high risk of flooding; and (C) may include a regulatory floodway, flood pool, or reservoir.  "500-year floodplain" means any area of land that:  (A) is identified on the flood insurance rate map as a moderate flood hazard area, which is designated on the map as Zone X (shaded); and  (B) has a two-tenths of one percent annual chance of flooding, which is considered to be a moderate risk of flooding.  "Flood pool" means the area adjacent to a reservoir that lies above the normal maximum operating level of the reservoir and that is subject to controlled inundation under the management of the United States Army Corps of Engineers.  "Flood insurance rate map" means the most recent flood hazard map published by the Federal Emergency Management Agency under the National Flood Insurance Act of 1968 (42 U.S.C. Section 4001 et seq.)  "Floodway" means an area that is identified on the flood insurance rate map as a regulatory floodway, which includes the channel of a river or other watercourse and the adjacent land areas that must be reserved for the discharge of a base flood, also referred to as a 100-year flood, without cumulatively increasing the water surface elevation of more than a designated height.
