RAIL	The City of Rochelle Industrial Railroad (CIR) has been the catalyst for economic development for the City of Rochelle for more than 30 years. The continuous expansion of the rail system has allowed rail-served industries to cut cost and increase efficiency in shipping and receiving operations due to the dual interchanges with Union Pacific and Burlington Northern Santa Fe Railroads. The CIR was strategically established and located on the growth edge of Chicago's westward commercial frontier to meet the demand of industries looking to locate outside the capacity-constrained Chicago area.
AIRPORTS	The Rochelle Koritz Field Municipal Airport is a full-service, corporate and general aviation aircraft facility strategically situated two miles west of the industrial area; right on the intersection of Highway 251 and I-88 providing immediate access to the Chicago Urban area. Chicago - Rockford International Airport (RFD) only 30 minutes North of Rochelle. RFD is located less than one hour drive of Chicago O'Hare International Airport. RFD offers significant advantages to Air Cargo Carriers and Air Freight Forwarders. Cargo Airlines using RFD save fuel, save time, and save money. Independent airspace assures direct in approaches. Surrounded by expressways running north, south, east and west, RFD has excellent accessibility for speedy road feeder services. RFD is conveniently located minutes from major highways with Interstate highway access to Chicago, Wisconsin, Minnesota, Iowa, Missouri, Indiana and beyond.
