Situated just outside of Dallas and minutes from Hwy 22, this property offers an ideal balance of privacy and accessibility. Its location provides quick connections to Salem and the greater Willamette Valley while also offering an easy route to the Oregon Coast. Being positioned in the heart of Oregon's agricultural region makes it especially attractive for farming, vineyard development, and agribusiness ventures, while the surrounding scenery and rural character provide a peaceful lifestyle setting. OPPORTUNITY

This property offers significant potential for both agricultural production and value-added operations. With nearly 150 acres of farmland, including 136± tillable acres of quality soils, it provides a solid foundation for farming, orchard development, or specialty crops. The existing home and supporting infrastructure make it suitable for both residential and working farm use, giving a buyer the flexibility to tailor the property to their vision. Its location near Hwy 22 and Dallas further enhances its appeal, with convenient access to Salem, the Willamette Valley, and the Oregon Coast.

The true opportunity, however, lies in the 24,000± sq. ft. processing facility, which is purpose-built and exceptionally well equipped. With 3-phase power, liquid nitrogen ports, compressed air fittings, and drainage systems in place, the facility is designed to support large-scale agricultural processing, food production, or other specialized industrial uses. Air lock truck bays, staging areas, offices, break rooms, and storage space make it turnkey for operations that require both efficiency and compliance. This unique combination of fertile farmland and a fully developed processing plant positions the property as a rare find with the capacity to support diverse business models and long-term growth.
