

## Proposed Resurvey

### Disclaimer:

This map represents a proposed layout provided by the seller (not RE/MAX Land and Home), indicating potential homesite locations and current access points to the property. The layout is for illustrative purposes only and does not constitute a survey or guarantee of development feasibility. Power currently runs through one corner of the property and, per Idaho Power, may be extended to the homesite; however, buyers should independently verify this information with the utility provider as well as power along the road. The property is presently depicted as being divided in a north-south direction, but it may be possible to re-survey and divide it in an east-west direction, subject to local regulations and approval. All buyers are encouraged to perform their own due diligence.
