

NWMLS#2317251 Property Description

Parcel 13

It all starts when you turn off of Glenwood Highway and drive through WA Dept of Wildlife Lands with the Mt Adams, Mt Rainer, Mt Hood and Greyback Mountain views and enter into the Greyback Mtn lands. After going through the gate and driving north about 1.5 miles, you come to your own private, and secluded approximately 80 acre parcel. Create and maintain your own forest, surrounded by Douglas Firs, P Pines and meadows. See if you can find a view of Mt Hood and Mt Adams; great for growing your own forest and full of seclusion. Design and build a cabin or retreat center and observe nature up close. Find out why it's called "the Milky Way " in the night sky. Grow your forest and use the land as an asset you can play on. No matter what you do, you will have solved the quest to own land.
